

HOW TO ACCESS WEBMAIL

Here you have two choices of the URL to type in (please remember there is no www at the beginning of this URL).

1. <http://mail.dynaworx.com> - this will work for all emails
2. <http://mail.yourdomain.com> - this is probably easier for you to remember as it is your domain name. It will redirect you to the mail.dyanaworx.com.

Then all you need to do is put in your user name and password

1. Your username is your email address (i.e. info@yourdomain.com)
2. Your password is the password we provided you with. If you do not remember it you can contact your sales rep Lucy at lucy@dynaworx.com and she will fix it all up for you.
